

The "Majestic Emperor Train de Luxe", a palace on rails, meets an ever increasing demand for incentives, meetings and private events. The wagons can be hired individually and linked to regular trains running on regular schedules; however, there is always the option to charter the complete train with historic locomotives. Transfers to all cities in Central Europe are possible. In the year 2008 we offer special journeys for individual travellers on our **Imperial Dinner Train 2008 "Arts & Delights"** which combines a guided tour through the famous collection of the Klimt Paintings with a romantic Train ride around Vienna by night with an elegant dinner and the **Imperial New Year's Express**, an exclusive journey into the new year with firework at midnight during a stop on a railway bridge over the Danube.
